SUMMARY

A student at new arts college. With my strong analytical skills and interest in Data Analyst, Data Scientist, SQL, and Python Developer. Machine Learning, I am eager to join your organization. Please consider me as a potential candidate for the position. Thank you very much for your time and consideration. To work with an organisation where can learn new skills and increase my abilities for the organizational goals as well as myself.

EDUCATIONAL QUALIFICATION

- Passed out **M.sc Mathematics** from **New Arts college (Autonomous)**.
- Passed out **B.sc Mathematics** from **SPPU University with A+ grade**.
- Passed out **12th** from **Pune University in 2017**.
- Passed out **10th** from **State board in 2015**.

PROJECT

- **Explore data for Credit card default**
In this project I have done preprocessing of data, cleaning data, analyse data and visualize data.
- **Explore data for Play store**
In this data I import some libraries like pandas, seaborn, matplotlib. After that I explore data for analysis and then visualize data.
- **Calculator by using python**
In this project I create appropriate and advance calculator.
- **Starbucks by using Power BI**
In this project first of all I import my data in Power BI application. After that I transform data then visualize given data.

TECHNICAL SKILLS

- Acquired advance knowledge of **Python**.
- Prior knowledge of **SQL, Power BI** acquired.
- Adapted knowledge about **Data Analysis, Pandas**.
- Adapted knowledge about **Advance Excel, Google sheets**.
- Build knowledge about **NumPy, Neural Networking, Natural Language Processing, Data Science**.
- Possess strong proficiency in **Machine Learning techniques, Artificial Intelligence**.
- Excel in data visualization, using tools like **Tableau** and **matplotlib** to transform complex dataset into clear.
- Have a strong background in **big data analytics**, utilizing tools.
- Adapted knowledge about **Advance Latex**.
- Adapted knowledge about **Mathematica**.

CERTIFICATE

- Achieve Certificate of **Mathematical Techniques in Data Science**,
- Achieve Certificate of **Bio-Mathematics: Calculus For Life Science**.

WORK EXPERIENCE

- **FRESHER**

STRENGHT AND HOBBIES

- Good understanding and operational risk,
- Good communication skill,
- Leadership, problem solving and creativity.
